

MUHAMMAD USMAN

Full Stack Developer

ABOUT ME

An exceptionally creative individual with in-depth knowledge of programming languages and development tools, possessing good interpersonal and analytical skills. Ability to adhere to design and develop software applications and thrive and learn on my own under little or no supervision, with 1+ years of working experience on diverse web, mobile, and cloud technologies like Asp .NET core, React Native, JavaScript, AWS, and GCP. Seeking the role of a Software Engineer in a leading organization to incorporate my expertise in application design, development, and deployments.

EXPERIENCE

April 23 - Present

STRAYASOFT

Karachi, Pakistan

FULL STACK DEVELOPER

- Developing a Vue.js and Dot Net Core web API-based software to streamline waste recycling processes.
- Utilizing Microservices architecture in ASP .NET Core to enhance system decoupling and scalability.
- Engaged in mobile app development using React Native and Google Firebase to create versatile and user-friendly applications.
- Employing both SQL Server Management Studio (SSMS) for relational data and Firestore for non-relational data storage.
- Managing data storage and services on AWS S3Buckets, AWS Amplify, and Google Cloud Platform (GCP) for a seamless cloud experience.
- Facilitating online transactions by integrating a secure Payment gateway using Stripe.

Feb 2023 - Mar 2023

HEXLOGICS

Gujrat, Pakistan

BACK END DEVELOPER

- Improved the effectiveness and speed of the backend by working on RESTful APIs using ASP.NET Core.
- Understandability of organizational behaviour

Nov 21 - Jan 2023

ASANII

Karachi, Pakistan

FULL STACK DEVELOPER

- Developing functional web APIs using .NET Core in a software-based environment.
- Engaging in mobile app development with React Native
- Applying the Domain Driven Design (DDD) pattern for improved software design.
- Utilizing both SQL Server Management Studio (SSMS) for relational databases and Firestore for non-relational databases.
- Exploring Serverless functions and integrating WhatsApp messaging functionality.
